

## Carrillo Recreation Center Renovation

### 2001A & 2003A Bond Funds

#### Project Description

This three-story 20,000 sq. ft. structure was built in 1913 and needs to be brought up to current performance standards, including seismic upgrades, Americans with Disabilities Act (ADA) compliance, and extending the useful life of the building's core systems. A facilities condition assessment has been guiding the renovation plans while promoting green building opportunities and preserving its historic integrity.

#### Funding

Original RDA Funding	\$4,500,000
<u>Additional RDA Funding</u>	<u>2,200,000</u>
Total RDA Funding	\$6,700,000

#### Status

Construction
