

City of Santa Barbara California

CITY OF SANTA BARBARA PLANNING COMMISSION

RESOLUTION NO. 037-07

2519 ORELLA STREET

INTERIOR SETBACK MODIFICATION

CONDOMINIUM CONVERSION AND TENTATIVE SUBDIVISION MAP

SEPTEMBER 20, 2007

**APPLICATION OF JYL RATKEVICH ARCHITECT/AGENT FOR PROPERTY OWNER,
2519 ORELLA STREET, 025-021-007, R-3 ZONE, GENERAL PLAN DESIGNATION:
RESIDENTIAL (12 UNITS/ACRE) (MST2007-00038)**

The proposed project involves a proposal to convert six (6) existing one-bedroom units and one (1) studio unit to seven (7) condominium units. The proposal includes, new paving and landscaping, demolition of an existing garage and construction of a new storage building. Seven parking spaces currently exist on site and one additional parking space for guest parking is proposed for a total of eight parking spaces. A single car garage, partially located in the required side yard setback, will be demolished and a freestanding storage building, with individual secure space for each of the units, will be constructed on the western side of Unit 2519A. Exceptions to the physical standards for condominium conversions have been requested for all of the units to be less than the required unit size, the location of the storage space and for having less than the required number of parking spaces per unit.

The discretionary applications required for this project are:

1. A Tentative Subdivision Map for a one-lot subdivision to create seven (7) residential condominium units (SBMC 27.07 and 27.13); and
2. A Condominium Conversion Permit to convert seven (7) existing residential units to seven (7) condominium units, including an exception to reduce the required parking for each unit from 1.5 to 1.0 space per unit, the unit size requirements for Unit 2519 C and an exception of the storage space location requirement (SBMC 28.88).

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Guidelines Section 15301.

WHEREAS, the Planning Commission has held the required public hearing on the above application, and the Applicant was present.

WHEREAS, no one appeared to speak in favor of the application, and no one appeared to speak in opposition thereto, and the following exhibits were presented for the record:

1. Staff Report with Attachments, September 6, 2007
2. Site Plans
3. Correspondence received in opposition to the project:

a. Judy Orias, Allied Neighborhood Association

NOW, THEREFORE BE IT RESOLVED that the City Planning Commission:

I. Approved the subject application making the following findings and determinations:

A. **THE TENTATIVE MAP (SBMC §27.07.100)**

The Tentative Subdivision Map is consistent with the General Plan and the Zoning Ordinance of the City of Santa Barbara. The site is physically suitable for the proposed development, the project is consistent with the variable density provisions of the Municipal Code and the General Plan, and the proposed use is consistent with the vision for this neighborhood of the General Plan. The design of the project will not cause substantial environmental damage, and associated improvements will not cause serious public health problems.

B. **FOR THE CONDOMINIUM CONVERSION (SBMC §28.88.120)**

1. The project is consistent with the provisions of the Condominium Conversion Ordinance and the project will not be detrimental to the health, safety, and general welfare of the community.
2. The proposed conversion is legally nonconforming to the density requirement of the Land Use Element of the General Plan (Residential- 12 units/acre). The unit density of the project is 23 units/acre.
3. The proposed conversion will conform to the Santa Barbara Municipal Code in effect at the time the application was deemed complete, except as otherwise provided in the Condominium Conversion Ordinance.
4. The overall design (including project amenities) and physical condition of the conversion, will result in a project which is aesthetically attractive, safe, and of quality construction.
5. The applicant has not engaged in coercive retaliatory action regarding the tenants after the submittal of the first application for City review through the date of approval.
6. The owner has made a reasonable effort to assist those tenants wishing to purchase their units for purposes of minimizing the direct effect on the rental housing market created by relocating such tenants.
7. The requirements of Section 28.88.130 have been met because there are fewer than 50 units proposed for conversion this year.
8. The use of the site as condominium units will not be detrimental to the public peace, health, safety, comfort or general welfare, nor will it decrease property values in the neighborhood. Adequate consideration has been given to setbacks, visibility, amenities and parking such that there will be no impact on surrounding properties or the neighborhood in general.

C. **EXCEPTIONS TO THE PHYSICAL STANDARDS FOR CONDOMINIUM CONVERSIONS (SBMC §28.88.040.N)**

1. Unit Size – All of the seven units are less than 600 square feet. These units provide an opportunity buy into the Santa Barbara housing market and the project includes amenities, such as ample outdoor living space and an open floor plan, which offset the project's failure to meet the 600 square foot unit size minimum. Additionally, increasing the size of the unit beyond that proposed would result in increased development on a site that is non-conforming as to density under the General Plan. However, it should be noted that the project is consistent with the Variable Density under the R-3 Zone District.
2. Parking –Historically, there has been one parking space per unit and that will not change. Further, one additional parking space is being provided for guest parking. Given the size of the units at approximately 550 square feet or less and that there is a large amount of common open space in conjunction with private open space, reducing the parking is appropriate. Finally, based upon parking demand, a reduction of parking from 1.5 spaces/unit to 1.0 space per unit has been supported in the past for units of 750 s.f. or less.
3. Location of Storage – The project's design features, such as providing storage in a location that is easily accessible to all affected residents, offsets the fact that the storage is not accessible directly from that unit's parking space.

II. Said approval is subject to the following conditions:

- A. **Recorded Agreement.** The following conditions shall be imposed on the use, possession and enjoyment of the Real Property and shall be memorialized in an "*Agreement Relating to Subdivision Map Conditions Imposed on Real Property*" reviewed and approved as to form and content by the City Attorney, Community Development Director and Public Works Director that shall be executed by the Owners concurrent with the Final Map, and recorded by the City prior to issuance of any Public Works permit or Building Permits for the condominium conversion. Said agreement(s) shall be recorded in the Office of the County Recorder:
 1. **Uninterrupted Water Flow.** The Owner shall provide for the uninterrupted flow of water through the Real Property including, but not limited to, swales, natural watercourses, conduits and any access road, as appropriate.
 2. **Recreational Vehicle Storage Prohibition.** No recreational vehicles, boats, or trailers shall be stored on the Real Property.
 3. **Landscape Plan Compliance.** The Owner shall comply with the Landscape Plan approved by the Architectural Board of Review (ABR). Such plan shall not be modified unless prior written approval is obtained from the ABR. The landscaping on the Real Property shall be provided and maintained in accordance with said landscape plan. If said landscaping is removed for any

reason without approval by the ABR, the owner is responsible for its immediate replacement.

4. **Storm Water Pollution Control and Drainage Systems Maintenance.** Owner shall maintain the drainage system and storm water pollution control devices intended to intercept siltation and other potential pollutants (including, but not limited to, hydrocarbons, fecal bacteria, herbicides, fertilizers, etc.) in a functioning state and in accordance with the Operations and Maintenance Procedure Plan approved by the Building Official. Should any of the project's surface or subsurface drainage structures or storm water pollution control methods fail to capture, infiltrate, and/or treat, or result in increased erosion, the Owner shall be responsible for any necessary repairs to the system and restoration of the eroded area. Should repairs or restoration become necessary, prior to the commencement of such repair or restoration work, the applicant shall submit a repair and restoration plan to the Community Development Director to determine if an amendment or a new Building Permit is required to authorize such work. The Owner is responsible for the adequacy of any project-related drainage facilities and for the continued maintenance thereof in a manner that will preclude any hazard to life, health, or damage to the Real Property or any adjoining property.
5. **Approved Development.** The development of the Real Property approved by the Planning Commission on September 20, 2007 is limited to converting six (6) existing one-bedroom units and one (1) studio unit to seven (7) condominium units. The project includes demolition of an existing garage and construction of a new, freestanding 244 square foot storage building that would serve each of the units. A laundry facility would also be located within the storage building and a common trash area would be located adjacent to the building. Seven existing parking spaces will remain and one guest parking space is proposed. Exceptions to the physical standards for condominium conversions have been requested for the units to be less than the required unit size of 600 square feet, the location of the storage space and for having less than the required number of parking spaces per unit and the improvements as shown on the Tentative Subdivision Map and architectural plans signed by the chairman of the Planning Commission on said date and on file at the City of Santa Barbara.
6. **Accessible Unit.** If any time the accessible studio unit is made available for sale, the Independent Living Resource Center, or successor agency serving the disabled population, shall be notified of the unit's availability.
7. **Required Private Covenants.** The Owners shall record in the official records of Santa Barbara County either private covenants, a reciprocal easement agreement, or a similar agreement which, among other things, shall provide for all of the following:
 - a. **Common Area Maintenance.** An express method for the appropriate and regular maintenance of the common areas, common access ways,

common utilities and other similar shared or common facilities or improvements of the development, which methodology shall also provide for an appropriate cost-sharing of such regular maintenance among the various owners of the condominium units.

- b. **Available for Parking for Tenants.** A covenant that includes a requirement that all parking spaces, except for one guest parking space, be kept open and available for the parking of vehicles owned by the residents of the property. One handicapped parking space shall be provided and assigned to the studio unit.
 - c. **Landscape Maintenance.** A covenant that provides that the landscaping shown on the approved Landscaping Plan shall be maintained and preserved at all times in accordance with the Plan.
 - d. **Trash and Recycling.** Trash holding areas shall include recycling containers with at least equal capacity as the trash containers, and trash/recycling areas shall be easily accessed by the consumer and the trash hauler. Green waste shall either have containers adequate for the landscaping or be hauled off site by the landscaping maintenance company. If no green waste containers are provided for common interest developments, include an item in the CC&Rs stating that the green waste will be hauled off site.
 - e. **Covenant Enforcement.** A covenant that permits each owner to contractually enforce the terms of the private covenants, reciprocal easement agreement, or similar agreement required by this condition.
8. **Oak Tree Protection.** The existing oak trees shown on the Landscape Plan shall be preserved, protected, and maintained. The following provisions shall apply to any oak trees to remain on the property:
- a. No irrigation systems shall be installed within three feet of the drip line of any oak tree.
 - b. The use of herbicides or fertilizer shall be prohibited within the drip line of any oak tree.
- B. **Design Review.** The following items are subject to the review and approval of the Architectural Board of Review (ABR). ABR shall not grant preliminary approval of the project until the following conditions have been satisfied.
- 1. **Tree Protection Measures.** The landscape plan shall include the following tree protection measures:
 - a. **Landscaping Under Trees.** Landscaping under the tree(s) shall be compatible with the preservation of the tree(s).
 - b. **Oak Tree Protection Measures.** The following provisions shall apply to existing oak trees on site:

- (1) Landscaping provided under the oak tree(s) shall be compatible with preservation of the trees as determined by the Architectural Board of Review (ABR). No irrigation system shall be installed under the dripline of any oak tree.
 - (2) Oak trees greater than four inches (4") in diameter at four feet (4') above grade removed as a result of the project shall be replaced at a three to one (3:1) ratio, at a minimum five (5) gallon size, from South Coastal Santa Barbara County Stock.
2. **Screened Check Valve/Backflow.** The check valve or anti-backflow devices for fire sprinkler and/or irrigation systems shall be provided in a location screened from public view or included in the exterior wall of the building.
- C. **Building Permit Plan Requirements.** The following requirements/notes shall be incorporated into the construction plans submitted to the Building and Safety Division for Building permits.
 1. **Design Review Requirements.** Plans shall show all design, landscape and tree protection elements, as approved by the Architectural Board of Review, outlined in Section B above.
 2. **Hydrology Calculations.** All drainage conveyance systems shall be designed to convey the 25-year storm event. If additional drainage conveyance structures are needed based on the review of the results of the hydrology calculations, the improvements shall be shown on the improvement plans and constructed prior to Certificate of Occupancy for the improvements permit, and prior to recordation of the Final Map, at the sole expense of the Owner.
 3. **Storm Water Quality Control.** The Owner shall apply storm water quality control guidelines to the project per the Public Works Department Construction Project Best Management Practices.
 4. **Utilities.** Provide individual water, electricity, and gas meters, and sewer lateral for each residential unit. Service lines for each unit shall be separate until a point five feet (5') outside the building.
 5. **Trash Enclosure Provision.** A trash enclosure with adequate area for recycling containers (an area that allows for a minimum of 50 percent of the total capacity for recycling containers) shall be provided on the Real Property and screened from view from surrounding properties and the street.

Dumpsters and containers with a capacity of 1.5 cubic yards or more shall not be placed within five (5) feet of combustible walls, openings, or roofs, unless protected with fire sprinklers.
 6. **Conditions on Plans/Signatures.** The final Planning Commission Resolution shall be provided on a full size drawing sheet as part of the drawing sets. Each

condition shall have a sheet and/or note reference to verify condition compliance. If the condition relates to a document submittal, indicate the status of the submittal (e.g., Final Map submitted to Public Works Department for review). A statement shall also be placed on the above sheet as follows: The undersigned have read and understand the above conditions, and agree to abide by any and all conditions which is their usual and customary responsibility to perform, and which are within their authority to perform.

Signed:

Property Owner		Date
Contractor	Date	License No.
Architect	Date	License No.
Engineer	Date	License No.

D. Community Development Requirements Prior to Building or Public Works Permit Application/Issuance. The following shall be finalized prior to, and/or submitted with, the application for any Building or Public Works permit:

1. **Contractor and Subcontractor Notification.** The Owner shall notify in writing all contractors and subcontractors of the site rules, restrictions, and Conditions of Approval. Submit a copy of the notice to the Planning Division.
2. **Traffic Control Plan.** A traffic control plan shall be submitted, as specified in the City of Santa Barbara Traffic Control Guidelines. Traffic Control Plans are subject to approval by the Transportation Manager.
3. **Park Commission Tree Removal Approval.** Submit to the Planning Division verification of approval from the Park Commission for the removal of 1 street tree in the front yard setback.
4. **Green Building Techniques Required.** Owner shall design the project to meet Santa Barbara Built Green Two-Star Standards and strive to meet the Three-Star Standards.
5. **Noise Measurements.** Submit an interior noise analysis from a licensed acoustical engineer, verifying that interior noise levels for future conditions (20 years) are no more than 45 dBA CNEL. As part of the structural and seismic upgrades, any deficiencies in noise mitigation shall be remedied.

- E. **Condominium Conversion Ordinance Compliance.** Owner shall comply with the tenant protection provisions of the Condominium Conversion Ordinance (SBMC Chapter 28.88) (including adjustments to the tenant assistance specified in Subsection 28.88.100.G as specified below):
1. **Notice of Approval of Conversion.** Owner shall deliver written notice to each tenant household within 15 days of the approval of the conversion. The content of such notice shall include an explanation of any conditions of approval that affect the tenants.
 2. **Notice of Final Map.** Owner shall deliver written notice to each tenant household of the approval of the final map within 10 days of such approval.
 3. **Notice of Department of Real Estate Report.** Owner shall deliver written notice to each tenant household that an application for a public report has been submitted with the California Department of Real Estate within 10 days of the submission of such application.
 4. **Exclusive Right to Purchase (Right of First Refusal).** Prior to issuance of a Certificate of Occupancy on the Conversion Permit, Owner shall provide evidence of the extension of an exclusive right to purchase in accordance with the provisions of Section 66427.1(d) of the Government Code.
 5. **Notice of Vacation of Unit.** Each non-purchasing tenant household that is not in default shall have not less than 180 days from the date of approval of the conversion in which to find substitute housing and to relocate. This 180-day period may be extended in special cases, as specified in Subsection 28.88.100.E of the Municipal Code.
 6. **Tenant Displacement Assistance.** In the place of the moving expenses specified in Subsection 28.88.100.G of the Santa Barbara Municipal Code, Owner shall provide each tenant household with displacement assistance in accordance with the provisions of Chapter 28.89. Evidence of compliance with this condition shall be submitted prior to the issuance of a Certificate of Compliance for the conversion permit.
- F. **Construction Implementation Requirements.** All of these construction requirements shall be carried out in the field by the Owner and/or Contractor for the duration of the project construction
1. **Construction-Related Truck Trips.** Construction-related truck trips shall not be scheduled during peak hours (7:00 a.m. to 9:00 a.m. and 4:00 p.m. to 6:00 p.m.). The purpose of this condition is to help reduce truck traffic on adjacent streets and roadways.
 2. **Construction Hours.** Construction (including preparation for construction work) is prohibited Monday through Saturday before 7:00 a.m. and after 5:00 p.m., and all day on Sundays and holidays observed by the City of Santa Barbara, as shown below:

New Year's Day	January 1st*
Martin Luther King's Birthday	3rd Monday in January
Presidents' Day	3rd Monday in February
Memorial Day	Last Monday in May
Independence Day	July 4th*
Labor Day	1st Monday in September
Thanksgiving Day	4th Thursday in November
Following Thanksgiving Day	Friday following Thanksgiving Day
Christmas Day	December 25th*

*When a holiday falls on a Saturday or Sunday, the preceding Friday or following Monday, respectively, shall be observed as a legal holiday.

When, based on required construction type or other appropriate reasons, it is necessary to do work outside the allowed construction hours, contractor shall contact the Chief of Building and Safety to request a waiver from the above construction hours, using the procedure outlined in Santa Barbara Municipal Code §9.16.015 Construction Work at Night. Contractor shall notify all residents within 300 feet of the parcel of intent to carry out night construction a minimum of 48 hours prior to said construction. Said notification shall include what the work includes, the reason for the work, the duration of the proposed work and a contact number.

3. **Tree Protection.** All trees not indicated for removal on the site plan shall be preserved, protected, and maintained, in accordance with any related Conditions of Approval.
4. **Oak Tree Protection.** The following provisions shall apply to existing oak trees on site:
 - a. During construction, fencing or protective barriers shall be placed around and three feet outside of the dripline of all oak trees located within 25 feet of development.
 - b. Grading within the dripline of any oak tree shall be minimized and shall be done with light (one ton or less) rubber-tired equipment or by hand. If use of larger equipment is necessary within the dripline of any oak, it shall only be operated under the supervision and direction of a qualified Arborist.
 - c. No storage of heavy equipment or materials, or parking shall take place within five (5) feet of the dripline of any oak tree.
 - d. Oak seedlings and saplings less than four inches (4") at four feet (4') above the ground that are removed during construction shall be transplanted where feasible. If transplantation is not feasible, replacement trees shall be planted at a minimum one to one (1:1) ratio.

Replacement trees shall be a minimum of one (1) gallon size derived from South Coastal Santa Barbara County stock.

5. **Graffiti Abatement Required.** Owner and Contractor shall be responsible for removal of all graffiti as quickly as possible. Graffiti not removed within 24 hours of notice by the Building and Safety Division may result in a Stop Work order being issued, or may be removed by the City, at the Owner's expense, as provided in SBMC Chapter 9.66.
6. **Unanticipated Archaeological Resources Contractor Notification.** Prior to the start of any vegetation or paving removal, demolition, trenching or grading, contractors and construction personnel shall be alerted to the possibility of uncovering unanticipated subsurface archaeological features or artifacts associated with past human occupation of the parcel. If such archaeological resources are encountered or suspected, work shall be halted immediately, the City Environmental Analyst shall be notified and the applicant shall retain an archaeologist from the most current City Qualified Archaeologists List. The latter shall be employed to assess the nature, extent and significance of any discoveries and to develop appropriate management recommendations for archaeological resource treatment, which may include, but are not limited to, redirection of grading and/or excavation activities, consultation and/or monitoring with a Barbareño Chumash representative from the most current City qualified Barbareño Chumash Site Monitors List, etc.

If the discovery consists of possible human remains, the Santa Barbara County Coroner shall be contacted immediately. If the Coroner determines that the remains are Native American, the Coroner shall contact the California Native American Heritage Commission. A Barbareño Chumash representative from the most current City Qualified Barbareño Chumash Site Monitors List shall be retained to monitor all further subsurface disturbance in the area of the find. Work in the area may only proceed after the Environmental Analyst grants authorization.

If the discovery consists of possible prehistoric or Native American artifacts or materials, a Barbareño Chumash representative from the most current City Qualified Barbareño Chumash Site Monitors List shall be retained to monitor all further subsurface disturbance in the area of the find. Work in the area may only proceed after the Environmental Analyst grants authorization.

- G. **Public Works Submittal Prior to Final Map Recordation.** The Owner shall submit the following, or evidence of completion of the following, to the Public Works Department for review and approval, prior to recordation of the Final Map:
 1. **Building Permit Required for Conversion.** Provide evidence that a conversion permit has been issued and all work completed for the conversion of the seven units to condominiums.

2. **Final Map.** The Owner shall submit to the Public Works Department for approval, a Final Map prepared by a licensed land surveyor or registered Civil Engineer. The Final Map shall conform to the requirements of the City Survey Control Ordinance.
3. **Water Rights Assignment Agreement.** The Owner shall assign to the City of Santa Barbara the exclusive right to extract ground water from under the Real Property in an "Agreement Assigning Water Extraction Rights." Engineering Division Staff will prepare said agreement for the Owner's signature.
4. **Required Private Covenants.** The Owner shall submit a copy of the recorded private covenants, reciprocal easement agreement, or similar private agreements required for the project. If the private covenants required pursuant to Section A.7 above have not yet been approved by the Department of Real Estate, a draft of such covenants shall be submitted.
5. **Drainage Calculations.** The Owner shall submit drainage calculations prepared by a registered civil engineer or licensed architect demonstrating that the new development will not increase runoff amounts above existing conditions for a 25-year storm event. Any increase in runoff shall be retained on-site.
6. **Drainage and Water Quality.** Project drainage shall be designed, installed, and maintained such that stormwater runoff from the first inch of rain from any storm event shall be retained and treated onsite in accordance with the City's NPDES Storm Water Management Permit. Runoff should be directed into a passive water treatment method such as a bioswale, landscape feature (planter beds and/or lawns), infiltration trench, etc. Project plans for grading, drainage, stormwater treatment methods, and project development, shall be subject to review and approval by City Building Division and Public Works Department. Sufficient engineered design and adequate measures shall be employed to ensure that no significant construction-related or long-term effects from increased runoff, erosion and sedimentation, urban water pollutants or groundwater pollutants would result from the project. The Owner shall maintain the drainage system and storm water pollution control methods in a functioning state.
7. **Orella Street Public Improvement Plans.** The Owner shall submit public improvement plans for construction of improvements along the property frontage on Orella Street. The C-1 plans shall be submitted separately from plans submitted for a Building permit. As determined by the Public Works Department, the improvements shall include new and/or remove and replace to City standards, the following: *crack seal to the centerline of the street along entire subject property frontage and a minimum of twenty-feet (20') beyond the limits of all trenching, underground service utilities, connection to City water and sewer mains, public drainage improvements with supporting drainage calculations and/or hydrology report for installation of (drainage pipe, curb drain outlets, slot/trench drain, drop inlet, detention, erosion protection (provide off-site storm water BMP plan), etc.), supply and install one (1)*

residential standard street light, style to be determined by the Public Works Department and the ABR, preserve and/or reset survey monuments and contractor stamps, supply and install directional/regulatory traffic control signs according to the MUTCD Chapter 6, and provide adequate positive drainage from site. The existing private sewer lateral serving the property is subject to the Sewer Line Inspection Program and shall be repaired before new dwellings are occupied. Any existing sewer lateral(s) identified to be abandoned, shall be disconnected at the sewer mainline connection. A licensed plumber shall verify if the property requires a backwater valve. If existing lateral already has a backwater valve, then it shall be inspected. The building plans, drainage calculations and hydrology report shall be prepared by a registered civil engineer. Any work in the public right of way requires a public works permit.

8. **Land Development Agreement.** The Owner shall submit an executed "Agreement for Land Development Improvements," prepared by the Engineering Division, an Engineer's Estimate, signed, and stamped by a registered civil engineer, and securities for construction of improvements prior to execution of the agreement.
 9. **Removal or Relocation of Public Facilities.** Removal or relocation of any public utilities or structures must be performed by the Owner or by the person or persons having ownership or control thereof.
- H. **Public Works Requirements Prior to Building Permit Issuance.** The Owner shall submit the following, or evidence of completion of the following to the Public Works Department for review and approval, prior to the issuance of a Building Permit for the project.
1. **Recordation of Final Map and Agreements.** After City Council approval, the Owner shall provide evidence of recordation to the Public Works Department.
 2. **Approved Public Improvement Plans and Concurrent Issuance of Public Works Permit.** Upon acceptance of the approved public improvement plans, a Public Works permit shall be issued concurrently with a Building permit.
- I. **Prior to Certificate of Occupancy for the Conversion Permit.** Prior to issuance of the Certificate of Occupancy for the Conversion Permit, the Owner of the Real Property shall complete the following:
1. **Repair Damaged Public Improvements.** Repair any damaged public improvements (curbs, gutters, sidewalks, roadways, etc.) subject to the review and approval of the Public Works Department per SBMC §22.60.090. Where tree roots are the cause of the damage, the roots shall be pruned under the direction of a qualified arborist.
 2. **Complete Public Improvements.** Public improvements, as shown in the building plans, including utility service undergrounding and installation of street trees.

3. **Manholes.** Raise all sewer and water manholes on easement to final finished grade.
 4. **Noise Measurements.** Submit a final report from a licensed acoustical engineer, verifying that interior and exterior living area noise levels are within acceptable levels as specified in the Noise Element. In the event the noise is not mitigated to acceptable levels, additional mitigation measures shall be recommended by the noise specialist and implemented subject to the review and approval of the Building and Safety Division and the Architectural Board of Review (ABR).
 5. **Recordation of Final Map and Agreements.** After City Council approval of the Map and Agreements, the Owner shall provide evidence of recordation to the Public Works Department.
- J. **Litigation Indemnification Agreement.** In the event the Planning Commission approval of the Project is appealed to the City Council, Applicant/Owner hereby agrees to defend the City, its officers, employees, agents, consultants and independent contractors ("City's Agents") from any third party legal challenge to the City Council's denial of the appeal and approval of the Project, including, but not limited to, challenges filed pursuant to the California Environmental Quality Act (collectively "Claims"). Applicant/Owner further agrees to indemnify and hold harmless the City and the City's Agents from any award of attorney fees or court costs made in connection with any Claim.

Applicant/Owner shall execute a written agreement, in a form approved by the City Attorney, evidencing the foregoing commitments of defense and indemnification within thirty (30) days of the City Council denial of the appeal and approval of the Project. These commitments of defense and indemnification are material conditions of the approval of the Project. If Applicant/Owner fails to execute the required defense and indemnification agreement within the time allotted, the Project approval shall become null and void absent subsequent acceptance of the agreement by the City, which acceptance shall be within the City's sole and absolute discretion. Nothing contained in this condition shall prevent the City or the City's Agents from independently defending any Claim. If the City or the City's Agents decide to independently defend a Claim, the City and the City's Agents shall bear their own attorney fees, expenses, and costs of that independent defense.

NOTICE OF TENTATIVE SUBDIVISION MAP (INCLUDING CONDOMINIUM CONVERSIONS) TIME LIMITS:

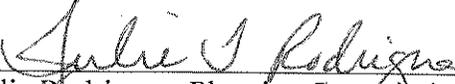

The Planning Commission's action approving the Tentative Map shall expire two (2) years from the date of approval. The subdivider may request an extension of this time period in accordance with Santa Barbara Municipal Code §27.07.110.

PLANNING COMMISSION RESOLUTION NO. 037-07
2519 ORELLA STREET
SEPTEMBER 20, 2007
PAGE 14

This motion was passed and adopted on the 20th day of September, 2007 by the Planning Commission of the City of Santa Barbara, by the following vote:

AYES: 3 NOES: 2 (Jostes, Myers) ABSTAIN: 0 ABSENT: 2 (Jacobs, White)

I hereby certify that this Resolution correctly reflects the action taken by the City of Santa Barbara Planning Commission at its meeting of the above date.

Julie Rodriguez, Planning Commission Secretary

Date

THIS ACTION OF THE PLANNING COMMISSION CAN BE APPEALED TO THE CITY COUNCIL WITHIN TEN (10) DAYS AFTER THE DATE THE ACTION WAS TAKEN BY THE PLANNING COMMISSION.
