**CHANGES TO THE CITY'S ZONING AND GENERAL PLAN MAPS**

In December 2011, the City adopted the updated General Plan. An important Phase 1 General Plan implementation program is amending the citywide zoning map. The Zoning Map amendments are necessary primarily to: address parcels with inconsistency between the existing zoning and the new General Plan map in terms of designations and residential densities, and parcels bisected by different zoning designations.

Additional amendments are proposed to the recently adopted General Plan Map as part of the recommended rezones, either to make the zone consistent with the General Plan or because the existing land uses or zone designations call for a particular General Plan designation.

The Planning Commission held a public hearing to receive public input and formalize their recommendations to the City Council on proposed citywide zoning and General Plan map amendments. The amendments will then be considered for adoption by the City Council at a future meeting.
