

Concrete Construction to Begin on East Anapamu

Completed sidewalk and curb ramp construction

East Anapamu Street between Garden and Milpas Streets is tentatively scheduled for concrete sidewalk and ramp construction on March 25-29, during the Santa Barbara High School spring break. Curb ramps will be constructed for Americans with Disabilities Act compliance, and sidewalks will be replaced or repaired. This work is funded by Measure C (local sales tax) and is part of a larger pavement maintenance project taking place on high-priority streets this spring throughout the City.

Some temporary road closures at Salsipuedes Street and Nopal Street should be expected in order to minimize construction duration and to ensure the least disruption to normal traffic flow. No-parking signs will be posted at least 72 hours prior to construction, and detour signs will also be provided.
